EXECUTIVE PROFILE

Sustainability & Supply Chain Decarbonization Lead with a chemical engineering foundation and software driven ESG systems expertise. Specializes in ESG data systems, supplier decarbonization programs, and board-level climate governance frameworks across complex global manufacturing networks.

Led cross-border transformation programs across Bangladesh, India, and Pakistan, integrating 90+ factories into real-time ESG monitoring systems and supporting 25 facilities in setting SBTi-aligned climate targets. Experienced in board-level engagement, supplier capability development, and implementation of reporting systems aligned with GRI, CSRD, CSDDD, and SBTi frameworks.

STRATEGIC IMPACT

- Originated, structured, and closed €85K OECD-aligned ATTI Bangladesh Needs Assessment contract
- Managed \$55K annual ESG data platform subscription portfolio
- Onboarded 90+ factories into real-time ESG monitoring infrastructure
- Enabled 25 factories to initiate SBTi-aligned decarbonization roadmaps
- Directed market expansion into Bangladesh, India and Pakistan; China market pipeline in progress
- Portfolio includes BESTSELLER, Inditex, Primark, ATTI, DBL Group, Masco Group, Urmi Group

CORE EXPERTISE & TECHNICAL CAPABILITIES

Supply Chain Decarbonization & Climate Strategy

- Scope 1–3 emissions modeling and SBTi-aligned target structuring
- Financially quantified decarbonization roadmaps across manufacturing networks

ESG Reporting & Regulatory Alignment

- GRI, CSRD, CSDDD, and SBTi disclosure integration
- Audit-ready ESG reporting architecture under OECD due diligence frameworks

Sustainability Data & Digital Systems

- ESG data architecture, KPI dashboards, and ESG Data platform implementation
- Predictive resource-efficiency modeling and performance analytics

Industrial Sustainability & Strategic Advisory

- Energy, GHG, water, and chemical optimization programs
- Supplier capability development and transformation programs
- Team leadership, KPI management, and performance oversight

PROFESSIONAL EXPERIENCE

Head of Client Relations & Sustainability Strategy

Intelligent Resources International (IRI) Ltd.

Jan 2024 – Present

- Closed €85K OECD-aligned ATTI Bangladesh Needs Assessment contract through competitive multi-stage bid process.
- Generated and managed \$55K annual recurring revenue through ESG data platform sales and renewals
- Led 25 factories for SBTi-aligned emission reduction targets.
- Led a team of 5 professionals; managed KPIs, performance, and strategic direction.
- Engaged directly with boards and executive leadership on decarbonization strategy.

- Developed RTIS ESG reporting engine compatible with GRI, CSRD, CSDDD, and SBTi frameworks.
 - Resource Tracking Information System (RTIS), a digital ESG monitoring platform
- Diversified sustainability services beyond apparel into additional industrial sectors.
- Built regional ESG services pipeline across Bangladesh, India, and Pakistan; drove market expansion strategy and enterprise client acquisition

Manager – Technical Integration & Training

Engineering Resources International (ERI) Ltd.

Jul 2023 – Dec 2023

- Advised on RTIS optimization, system training, and global sustainability alignment.
- Onboarded 30+ factories; trained 200+ professionals across South Asia.
- Aligned factory-level environmental strategy with UNFCCC climate objectives.
- Launched 3 sustainability programs to strengthen supply chain performance.

RTIS Integration Lead

Engineering Resources International (ERI) Ltd.

Jul 2022 – Jun 2023

- Built predictive resource-efficiency models for apparel sector.
- Developed RTIS core system architecture and training modules.
- Launched RTIS platform and onboarded 60+ factories for real-time resource monitoring.

Engineer – Sustainable Development

Engineering Resources International (ERI) Ltd.

May 2021 – Jun 2022

- Conducted 80+ energy audits, 40+ chemical assessments, and 15+ ETP evaluations.
- Delivered measurable improvements under BESTSELLER program:
 - 8% energy reduction, 11% GHG reduction, 12% water savings

EDUCATION

M.Sc. in Chemical Engineering

BUET, 2024

B.Sc. in Chemical Engineering & Polymer Science

SUST, 2021

B.Sc. in Computer Science & Engineering (Double Degree)

SUST, 2019

CERTIFICATIONS

- Certified Energy Manager - SREDA
- UNFCCC LDC Roster of Experts (NAPs)
- Managerial Communication for Professional Success – IBA-DU
- Climate Action Training – UN Fashion Charter
- Impact of Climate Change & Occupational Heat Stress – ILO

Languages

- English – Excellent Professional Proficiency (GRE: 313, TOEFL iBT: 89)
- Bengali – Native
